Navigation Bar (touch compatible)

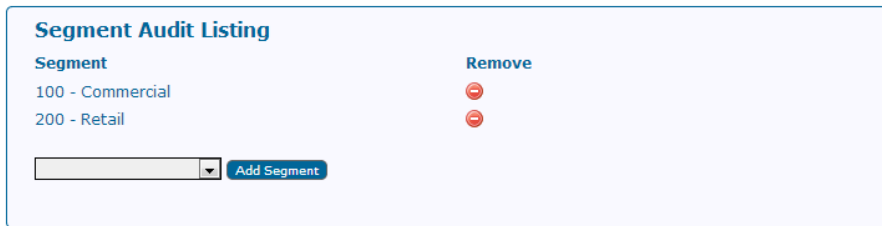

The navigation bar has been completely redesigned, and is now touch screen compatible.

(New navigation bar)

Manager Approval on Segments

In prior versions a manager was limited to a maximum of 8 segment codes. Now a segment list is created by manager which has no limit.

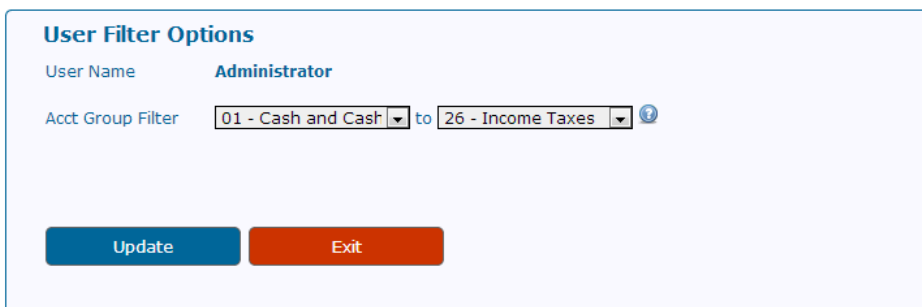

(Manager assigned segments)

User Account Range Override

By default the account range is restricted by the account group range setup in options. Each user may have the Acct Override option turned on, which give them access to a specific range that is unique to the user.
